

Planning Application for a CRYOBattery™ Energy Storage Scheme

Albannach Power Island 1

At Spittal 2 Quarry, Wick, KW1 5XR

Community Consultation Questionnaire

Highview Power, the developer of the proposed CRYOBattery™ facility in Spittal welcomes your comments following the live web-based meeting on 3 June 2021 at 5-7pm. The energy storage facility would have the capacity to deliver 49.9 MW of clean electricity by utilising surplus wind energy and discharging at times of high demand. This questionnaire has been provided as one of the ways for you to provide feedback after the public event.
